Subject: Charter amendment to create a dept. to combat climate change

Aloha,

Please create a Charter amendment to create a department to combat climate change. Climate change is already affecting Maui County as witnessed by multiple brush fires and king tides. This summer our average high temperature is three to four degrees higher than normal, which is a huge amount for Hawaii.

Climate change is the greatest threat to our planet. Unfortunately, this is the only planet we have, so let's make a concerted effort to reverse our damaging ways.

Mahalo,
Marc Drehsen, Kihei
