Subject: EDB-52 Affordable Housing in Hana (Habitat for Humanity)

Aloha, Economics development and Budget committee

I humbly ask that you consider into the 2020 Fiscal year budget EDB-52- Affordable housing project for Hana in the Wakiu area with habitat for humanity.
This project is much needed for the families in Hana.

Housing is very limited for the people here. There are 3 to 5 generations of families living in one household. This new construction of 25 single-family homes with affordability of 30 years is much needed as our community continues to grow.

I know there are many families in Hāna who have already taken the steps in 101 financial classes to help prepare themselves for the affordable housing through habitat for Humanity. I am one of them, along with some other family members who have also taken the steps towards this project. We need your help in making this become a reality.

I am grateful that Maui County and Habitat for Humanity is considering to help the community of Hana. This partnership of working together will help this project move forward in a positive way that will meet the needs of the people.

I asked that the committee considers passage of the proposed bill on the reading with or without revisions. Or if the committee feels that filing a county communication 19-368 and other related action would work in favor of moving this project forward.

Thank you for taking the time to read my letter in approving affordable housing project in Hana into the 2020 fiscal year budget.

Much Mahalo,

Lucille Noe Lecker
