Aloha Council Members

I am summiting testimony for EBD-40.

As a member or Kaupo Community Association and decent of Kaupo Maui, It was my view as this Historical site/building know as Kaupo School was not demolished. I have visited the site and attended many meeting of Kaupo Community Association that met my personal approval of the process in restoring the Kaupo School. It is unfortunate that this situation has come to a stop work and hopefully today concerns will be answered for clarity

I am not the expert but felt that everything was taken step by step in the process. Countless community meeting , plans drawn and more so when attending the last scheduled meeting, documentation was on hand with pictures of boards that needed replacing and oblivious to a person of no expertise. Today we can all come together to see how this project can continue due to the overall benefit that will be for the Community of Kaupo.

Mahalo,

Claire Kamalu Carroll
