**Subject:** Paia Courtyard Project - YES

Hello,

I am sending this email to let the County know that I am in favor of the Paia Courtyard project especially the Senior housing portion. I believe that this would be a great project for the community. When you are a senior, you become less mobile. The Senior housing in Paia would be very beneficial to the community. The Kapuna would be within walking distance to the grocery store, restaurants, post office, doctors offices and the beach. There would be no need for them to drive for their everyday errands. The bike path which is within walking distance would be a great exercise area off the roadway and is an added benefit to keep in shape that in the long run keeps everyone healthier and lowers medical costs. It is also right down the street from the senior center in Spreckelsville. I would love to live there when I get older.

I think the County Council needs to look at the needs of the Kapuna and not have the attitude of "We are here in Paia now and lets not let anybody else in".

Thank you for your time.

Sincerely,  
Melissa Suarez
