Re: Paia Courtyard

My name is Sandy Doane-Muller, I am writing this letter to show support for the Paia Courtyard project that has been submitted by David Spee. I have lived in Hawaii for the past 35 years and have watched many changes, both good and bad happen here. This project, in my opinion is not only a good change, but a GREAT one.

Just the fact that there is allotted senior living space, allotted affordable housing and medical facilities planned should speak for itself. It is a lot more than many other developments have provided. Although I don't feel like a senior, I am, these facilities for Paia and the North Shore are extremely important to me. As I age I would like to be able to have a choice to live in a community such as this and be able to walk where I need to go & have everything I need in a condensed location.

If this development does not go through, what will happen to Paia? After all, in the scheme of things, 10 acres is nothing compared to what is sitting on the North Shore and is currently being used for the wrong things; cars that have been stolen, homeless people who leave trash all over, crime & theft is rising, and not to mention existing property owners who don't care. Is this what we want our tourists (the backbone of economy here) to see? I truly believe this project will help take care of some of the existing problems that Paia has & will face, as people will take more pride in the area.

I am respectfully asking that you approve this development for all seniors and residents of Maui. Let's clean up Paia and make it the great little town that it was & is meant to be.

Respectfully

Sandy Doane-Muller
