Subject: wetland property at 1488 S. Kihei Rd

We are AGAINST this Change in Zoning re: Sujata Bhatia's overreach for a SUBDIVISION on the wetland property at 1488 S. Kihei Rd

Wetlands constitute a vital component of our ecosystem and once developed, they will be lost forever.

There are numerous other plots of normal, arid land that can be developed for human habitation if the need arises.

This plot and other important wetlands should be preserved in their natural state.

Sincerely,

Arthur Otani, MD
