Honorable Tamara Paltin
Chairperson
Planning & Sustainable Land Use Committee

RE: Kilohana Makai

Housing for our local people has been an issue for many years on Maui. The fact that a local company is developing 100% Workforce Housing to benefit our community is amazing. The opportunity for families who are first-time homebuyers to live minutes from their place of employment, is a dream to most.

The cornerstone of our community is housing. We hear so many families decide to move away because of the shortage of affordable/workforce housing.

Island Sotheby's International Realty supports the proposed Kilohana Makai project and all the benefits it will bring to our local community.

Sincerely,

Ryan MacLaughlin
