Chairperson  
Planning & Sustainable Land Use Committee

RE: Kilohana Makai

I am in support of the proposed 28 single-family home project located in Kihei.

I am a product of Workforce Housing here on Maui. My life would be much different if the opportunity to own my own home did not present itself a couple years ago. I have since got engaged, and plan on having children and raising them in my new home/community.

It is unfortunate that these projects are few and far between. We can use about a hundred of these. I humbly ask your committee to support this project as it benefits our hard-working local families.
