RE: PSLU – 56 Change in Zoning for the Proposed Kilohana Makai Workforce Housing Project

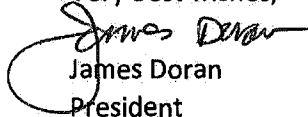

Aloha Members of the Committee,

Without question, one of the greatest needs facing our Maui community is the need for affordable workforce housing. To this end, I am writing to you today in support of changing the zoning for the Kilohana Makai project.

My family has been in business here on Maui for over 43 years in the construction industry and we know what a struggle it is for local families to make ends meet and achieve home ownership. Providing the opportunity for our local families to live and work on the island must be one of the highest priorities for our local government. Projects like Kilohana Makai that can help meet the need for workforce housing must be a priority.

Mahalo for the opportunity to submit this letter in support of the change in zoning to allow the development of the Kilohana Makai Workforce Housing Project.

Very Best wishes,

  
James Doran  
President
