RE: PSLU-56, Change in zoning for the proposed,  
Kilohana Makai Workforce Housing Project

To whom it may concern,

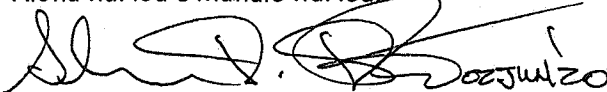

We are experiencing a time of struggle worse than any one we have seen in decades. At this time, affordable work force housing has been on the top of the list. As a 5<sup>th</sup> generation Portuguese local, I feel in my heart that this project is in a location that will help the affordability, and not over-burden our infrastructure within the area. It is common sense and imperative to move forward quickly on this change of zoning. Once the virus restrictions are lifted, not only will this project help by putting our locals to work, but the affordable part of this change will be a major factor in obtaining an affordable home (roof over the heads) for our locals and our island family. We as a community, should welcome this type development that will benefit our local ohana to strengthen our existence as Keiki o ka aina.

The people putting this project together are all committed professionals within this County to do the right thing. In this project, you will find Aloha from all that have taken the time to study and come before you with a well thought out plan to better all the lives involved.

Please find the Aloha nui loa in your hearts to grant this development a change of zoning, before it is too late.

Your serious consideration and attention to this matter is greatly appreciated.

Aloha nui loa e mahalo nui loa.
