Subject: Department of Agriculture

Aloha,

The county of Maui desperately needs a dept of agriculture. People have to eat. Depending on outside sources of food that need to be shipped here is not a solution. The best food is locally grown, organic, and as close as possible to the area where it will be consumed for freshness and maximum nutrients. Without a department of Agriculture, you would be dooming us on a sinking ship in the middle of the Pacific.

Mahalo,
Abra Dohrmann-Quinn
Haiku resident, Maui County
