**Subject:** Testimony regarding the Minatoya loop hole bill

Dear Committee members,

Please do not change the Minatoya codification. Originally the Minatoya loop hole bill was supposed to be sent from the Planning Commission but some one in another department and changed it to their wish list without approval from the Planning Commission.

I believe that not too much damage will be done with the current proposed bill if two sentences were modified as suggested by MVRA and RAM's Jason Economou.

Thanks for your consideration of this to protect our property rights and personal freedoms.

*Aloha 😊
