Subject: Agenda Item: Lihau'ula Project for Olowalu

Aloha Madam Chair Tasha Kama,

My testimony is after-the-fact. I oppose the project for Olowalu as Lihau'ula / Lihau 'Ula. I am uncertain how this will be played out in conjunction with the Maui Planning Commission's ongoing review of the West Maui Community Plan. Affordability in this project would have a household earning at minimum several thousand dollars per month in order to qualify. Lineal descendants of Olowalu would never be able to go back home. The health of the near-pristine coral reef ecosystem of Olowalu is also a concern. I will stop here. It is quite upsetting to be bombarded with developer/investor projects while doing business under several different business entities throughout the Lahaina District.

Mahalo for your time.

Tammy Harp
