Subject: Olowalu Affordable Housing Project

Chair and members of the Affordable Housing Committee, I urge you to fully accept and move on the proposed plan for affordable housing in the Olowalu area of West Maui. West Maui Land as well as others working with West Maui Land have offered affordable homes in the past and they have either been overly conditioned in the approval process or simply denied creating further delays in the provision of affordable housing. I urge you to stop the delay and encourage the type of project in the proposal before you and move on getting more people into affordable housing on Maui without further disenfranchisement.
