Subject: Lihau'ula Project

Aloha kakou:

I am expressing my support for the Lihau'ula Housing Project. Maui is in dire need of housing for its local people. More importantly, the project will provide an opportunity for some to live in Olowalu. At this point in time, only those who are able to purchase a vacant lot for 1.5 million dollars can live in Olowalu. By not approving a project such as this one, we are unintentionally perpetuating that status quo of maintaining residence in Olowalu for the exclusive.

Admittedly the proposed prices are out of reach for many. But the price of homes will never go down. It's now, or for many, never again.

Hinano Rodrigues
Mopua, Olowalu
