Subject: Protect Oluwalu Testimony

Aloha,

I am writing my testimony in opposition of the Peter Martin Oluwalu Development project. This matter had been settled on prior and community has spoken; nothing has changed since then. We do need “true” and “smart” affordable housing but this is not it. 70% of homes are \$600k, not affordable already but then you add the fact that they’ll need private water treatment which really goes unmaintained in the long run and cause damage to the precious reef just downhill that houses endangered species. We cannot come back from damage once done. So let’s remind the county Council that they are here to represent the people of this ‘Āina and the community has overwhelmingly expressed time and time again that we don’t want high density growth in Oluwalu and want to protect our precious reef so please deny this project and shut it down for good.

Mahalo,
Michelle Ramos
