Subject: Development at Olowalu

To whom it may concern:

Please Deny Lihau'ula Development at Olowalu!! It may endanger an already vulnerable population of near-shore manta rays. As you might learn from reading about the manta rays of Kona, they are very valuable for the community. Eco-tourism to see mantas can provide jobs for locals and will generate income for the island and the state. PLEASE protect them.

Captain Emily Sepeta
Kona, HI
