I SUPPORT AG TOURISM.

I believe Ag Tourism is a necessity in order for many of the farmers here on Maui to be economically sustainable, it supports sustainability of the island (clearly a necessity) since the income would help keep these farmers on task with their production, and it would help to provide a valuable service to the tourist community....which is considered crucial to the sustainability of the island as well. More people are wanting to know about food production, more farmers are wanting to share....works for everyone.

My name is Sylvia Cenzano, I am a farmer in Haiku:
Kolealea Agricultural Center
Málamalama Farm and Center
