Subject: AgTourism Bill

EAR Committee Members,

We are long time property owners of a flower farm in Nahiku, East Maui. Following the loss of the profitable flower market in Hawaii, we have turned our farm into a tropical botanical collection and a 'living green-sustainability' producing and teaching environment. We believe we fall into the category of AgTourism.

We appreciate your efforts to bring this bill to passage this spring and ask that you consider the Hana area within this bill.
