I had a chance to see manta rays while visiting Hawaii and it was a life changing experience. So I add my voice against the Olowalu development as the natural beauty of this area needs to be preserved.

So please Deny Lihau'ula Development at Olowalu as a precautionary measure to protect Maui's beloved manta ray population

Subject: Olowalu Low-Income Housing

I support Maui County's APPROVAL for affordable housing especially and 'directly' toward low-income guidelines established for the longevity of kama'aina family by tenancy & fee simple ownership...not as investment strategies or short-term turn-overs into rental income. We must maintain conversations that invite the integrity and heart developers intend to provide and to maintain a viable socio-economic neighborhood mix need such as West Maui Land Company has addressed and exemplified over 20 years despite community fears.

The County's expert guidance could help developers by inviting questions and resolving such thru standards sensitive to changing demographics as well. HOW it's done is by monitoring proto-types which may present land zoning investigations as we live it. I don't know, but there's an increase of educated and experienced people who are think-tank resources.

Destiny's are lived sometimes before the road is paved.

I missed an opportunity to present publicly and I request my testimony in support for the Olowalu housing project.

Subject: We do NOT support Lihau'ula Workforce Housing project in Olowalu

Hello,

I know I am a day late in submitting this testimony but it is very important to me. I was away in a remote area for a few days and recently heard about this. I live in Olowalu with my partner. We do not support expanding ANY housing here. This is a VERY sensitive area with lots of history, ecological importance, and very little water.

This is a hard area to live- it's very dry, windy, and has a lack of water resources. Anything that is done on the land is going to end up in the ocean. The Olowalu reef is so ecologically vital- habitat to fish, monk seals, turtles, sharks, manta rays, and more. More humans in this area disturbs it. When the Planning Committee was doing their Maui County Plan meetings recently, they held one at the Olowalu Plantation House. Almost everyone at that meeting said keep everything the same in Olowalu! Do not build! Do not expand! Listen to the people! This is not affordable housing, just hurting the land, the people that live here, and putting money in the pockets of those who already have money!

Sincerely,

Laura Berthold and John Comcowich

Subject: Development at Olowalu - manta rays

Please Deny Lihau'ula Development at Olowalu as a precautionary measure to protect Maui's beloved manta ray population.

Manta rays are the most wonderful creatures - so graceful and beautiful to watch and it would be devastating to lose any more.

Thank you.
