The proposed project involves work at South Kihei Road, between the intersections of Lipoa Street to Auhana Road and Keonekai Road to Kilohana Drive in Kihei, Maui. The proposed project involves the rehabilitation of pavement, installation of new pavement striping and markers, adjusting manhole and valve frames and covers where needed, removal and replacement of signage and posts, installation of concrete sidewalk, installation and replacement of curb ramps, and trenchless drainage pipe lining. Pavement rehabilitation includes removing the pavement down to the gravel subbase within the road right-of-way and installation of a new asphalt concrete pavement section. During roadway excavation, if existing waterlines are found to be at a shallow depth, work will involve relocating those waterlines to a standard depth of approximately 3 feet.

If there are any questions, please contact Kristi Ono at (808) 270-7745 or kristi.ono@co.maui.hi.us.
