Subject: Testimony for EACP-1

My name is Rebecca Sydney.

I would like to testify in favor of stopping harmful chemical pesticides and herbicides on Maui.

I have been trying to educate Public Works For the past 5 years by sending hundreds of documents and scientific studies regarding the harmful damage of just 1 product....Roundup. I've also sent photos where Public Works has sprayed around reservoirs, water drains and schools....contaminating our water and children.

David Goode returned a binder I sent him of hundreds of scientific cases where Roundup damaged or contaminated birds, toads, pets, drinking water, ocean life and humans - some dying of non-Hodgkins lymphoma. David didn't care. He said it was the only way to keep roads safe!!

So I started to weed a guard rail on Olinda Road where public works would spray Roundup. It only takes a few hours a week to beautify and clear the rail. It is so beautiful now and not toxic or deadly to Maui.

Please become educated about what chemicals do to the environment. Monsanto/Bayer still have thousands of lawsuits on cue for their cancer causing Roundup herbicide.

Please care!!!! If you don't, then Maui is not a special place and no different than any mainland town that is poisoned with ignorance.

Photos of Makawao Union playground. Roadways. PoliPoli Park. Waterways!! Terrible
