Subject: ICLEI USA CARE presentation (3/3/21)
Attachments: CARE_ICLEI USA.pptx

Hello all,

Please see attached for my ICLEI Overview presentation for the CARE meeting tomorrow. Looking forward to speaking with you all then!

Best,
Calyn

Local Governments
for Sustainability

ANALYZE- ACT- ACCELERATE

ICLEI USA Overview

ICLEI – Local Governments for Sustainability

ICLEI is the leading local government network dedicated to sustainability and climate action. For 30 years, we've represented the voice of cities and counties on the global stage.

We are now 24-office strong!

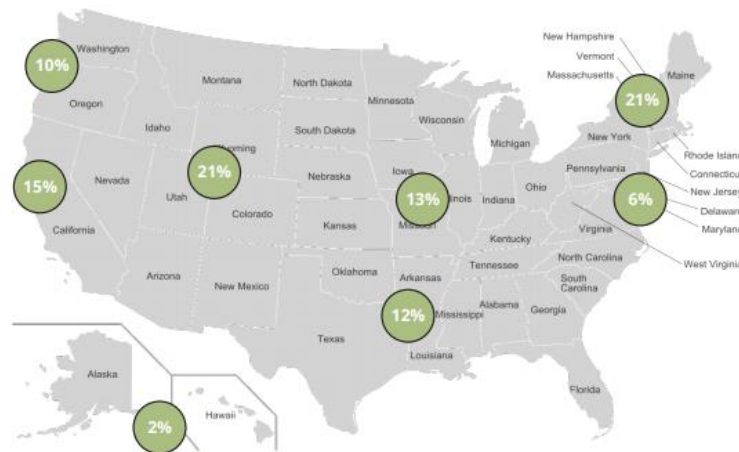

ICLEI – Local Governments for Sustainability

ICLEI is the leading global network of more than 1,750 cities, towns and regions committed to building a sustainable future. As the *only organization serving counties, towns and cities of all sizes*, ICLEI provides technical assistance, tools and resources, and facilitates an interactive network of local climate leaders across the U.S. and globally.

We help local governments build capacity and knowledge to make more informed decisions using protocols, data and best practices to reduce carbon pollution and respond to an ever changing climate.

MEMBERSHIP PERCENTAGE BY REGION

U.S. POPULATION IN ICLEI MEMBER CITIES AND COUNTIES

60,436,272

POPULATION UNDER 100,000

62%

ICLEI USA Tools

ClearPath Tool & ICLEI Community

A screenshot of the ClearPath tool interface. The top navigation bar includes the ICLEI logo, "Local Governments for Sustainability", and links for HOME, ABOUT ICLEI, GOVERNMENT TRACK, and COMMUNITY-SCALE TRACK. Below this, a sub-header shows "Community Scale | Inventories" and "Jurisdiction: MikeVille". The main content area is titled "2018 Inventory - CH Test" and includes a link to "Edit Parameters". It features a series of tabs for different energy sectors: Residential Energy, Commercial Energy, Industrial Energy, Transportation & Mobile Sources, Solid Waste, Water & Wastewater, AFSSU, Process & Fugitive Emissions, Upstream Impacts of Activities, and Consumption Based. The "Residential Energy" tab is active, showing "Available Calculators" with links to "Emissions from Grid Electricity", "Emissions from Stationary Fuel Combustion", "Notation Keys for Residential Energy", and "Emissions from Stationary Fuel Combustion (User Supplied Emissions Factors)". It also displays "Inventory Records For Residential Energy" with a table for "Residential electricity usage" and "Residential natural gas usage", and a "CO2e By Record" bar chart showing emissions for these two categories.

ICLEI Community

ClearPath

- User-friendly interface with easy data entry and calculators
- Online, “Cloud-Based” Application
- Collaboration supported w/ multiple users per jurisdiction and multiple jurisdictions per user
- Secure data storage
- Remote support and training curriculum with data collection templates
- Track progress over time
- Constant development mode

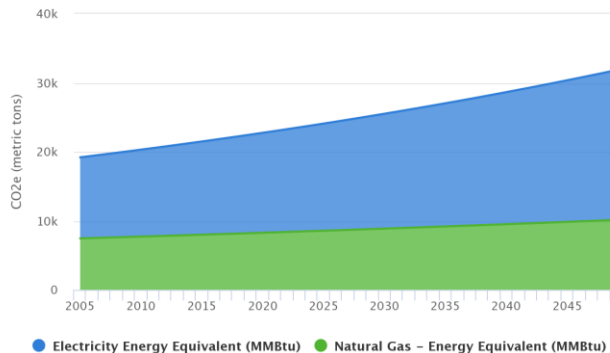

Inventory Module

- Residential Energy
- Industrial Energy
- Commercial Energy
- Water & Wastewater
- Solid Waste
- Transportation & Mobile Sources

Forecasting Module

Projected CO2e values

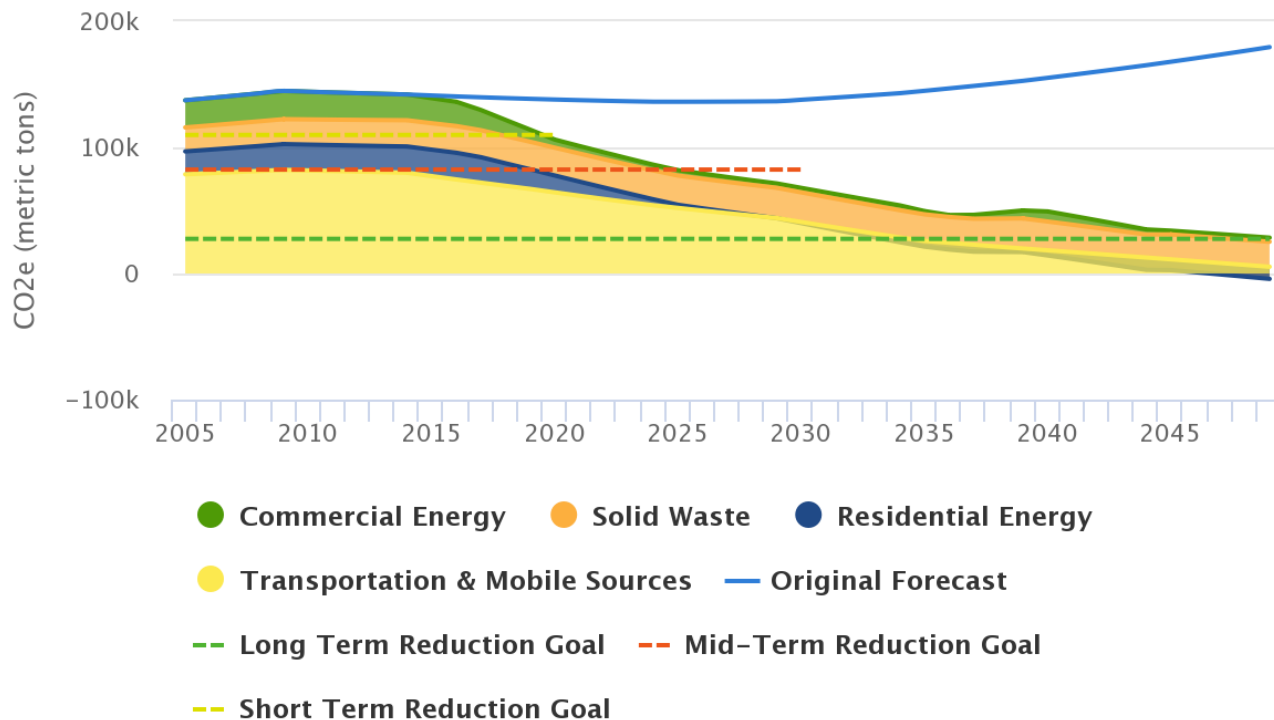

Projected CO2e values

- Commercial Energy
- Solid Waste
- Residential Energy
- Transportation & Mobile Sources
- Original Forecast
- Long Term Reduction Goal
- Mid-Term Reduction Goal
- Short Term Reduction Goal

Planning Module

Projected CO2e Values With Reductions Applied

Monitoring, Tracking & Reporting

Implementation Efficacy

Comparison of CO2e reductions of Monitoring Records to linked Reduction Measure Records

		2014	2016
Title 24 Commercial / Annual Electric Savings (MMBtu / Year) - Usage	Planned	90077.0	90077.0
	Achieved	3412.0	170600.0
	Impact Gap	-86665.0	80523.0

		2014	2016
Title 24 Commercial / Annual Electric Savings (MMBtu / Year) - CO2e	Planned	2670.1446664879795	2435.238689453699
	Achieved	0.091441	5.0
	Impact Gap	-2670.0532254879795	-2430.238689453699

		2014	2016
Title 24 Commercial / Annual Gas Savings (MMBtu / Year) - Usage	Planned	27000.0	27000.0
	Achieved	11000.0	10000.0
	Impact Gap	-16000.0	-17000.0

		2014	2016
Title 24 Commercial / Annual Gas Savings (MMBtu / Year) - CO2e	Planned	1435.1991412208909	1435.1991412208906
	Achieved	588.0	534.0
	Impact Gap	-847.1991412208909	-901.1991412208906

ICLEI Community

- Engage in live dialogue with 250+ local government staff from around the country
- View exclusive recorded trainings
- Download templates, guides and hundreds of sample plans

WELCOME TO THE ICLEI-USA ONLINE COMMUNITY!
A place for training resources, best practices, and interactions with ICLEI staff and your peers from around the nation

The 'Replicate' Community Actions Database

Your searchable collection of community climate and sustainability actions — by activity category, savings, GHG-mitigation potential, and other metrics

The screenshot shows the 'Measures' section of the database, specifically filtered for 'Commercial EE'. The interface includes a search bar, a 'Printable View' button, and a table of 15 items. The table columns are 'Project Name', 'Categories', 'Sub-Category', and an expandable dropdown menu. The items are sorted by Project Name and filtered by All measures.

	Project Name ↑	Categories	Sub-Category	E...
1	Acton Renewable Energy Target	Energy Use & Efficiency	Renewable or Clean Energy Generation	▼
2	Adjusting Single Family Zoning	Buildings	Zoning Codes	▼
3	Allen Pond Ballfield Lighting Project	Energy Use & Efficiency	Building Lighting	▼
4	AMBAG Renewable Energy Target	Energy Use & Efficiency	Renewable or Clean Energy Generation	▼

Circle Cities Scan Project

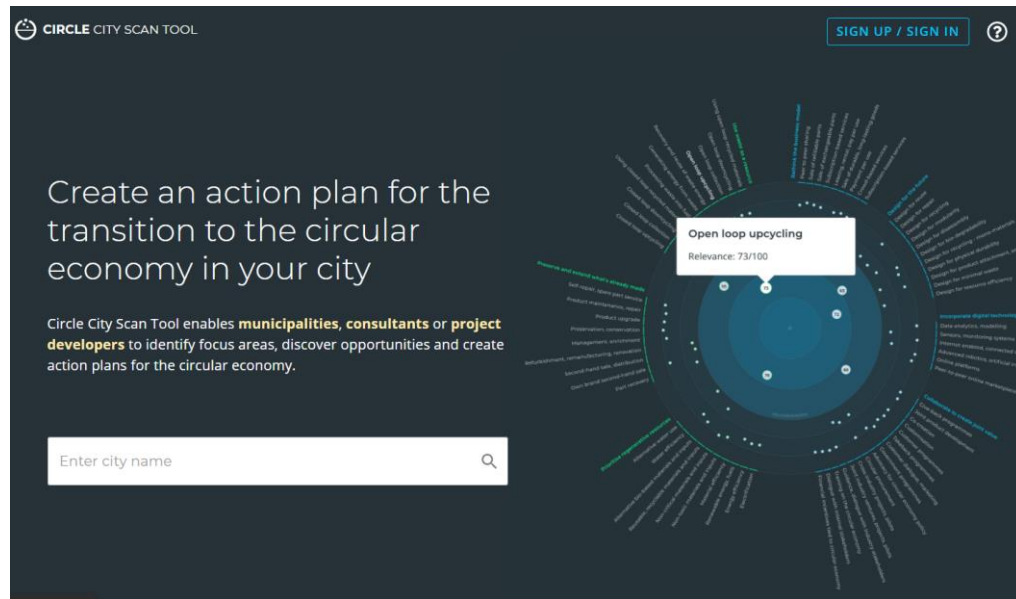

- **Phase 1 - Socio-economic Analysis** considers the current economic and socio-political situation to ensure a focus on relevant and impactful sectors.
- **Phase 2 - Material Flow Analysis** provides insight into the magnitude and nature of the material flows in the key sectors, in order to identify the most significant opportunities for circularity and positive impact.
- **Phase 3 - Circular Strategies** explores an array of possible circular strategies (e.g. pilot projects, infrastructure investments, policies) and estimates their potential impacts to facilitate choice between them.
- **Phase 4 - Action Plan** develops a plan for the implementation of the circular strategies, and elaborates on next steps needed in the short and medium term to ensure implementation.

2021 U.S. Pilot Five Cities / Counties

- **Regenerate: In synergy with nature**
 - Example: Japan water capture models or NEXUS project in South America
- **Rethink: Share**
 - industrial symbiosis, sharing schemes, as a service model
 - Example: Industrial symbiosis project in China
- **Reduce**
- **Reuse: Keep in use**
 - Baltimore 's Deconstruction and reuse program under Waste to Wealth
- **Recover: Make waste history**
 - Panaji 100+ composting and biogas stations
