Subject: Meeting 8/20/19, EACP-6

Good Morning Shane,

I will be unable to attend and would like to urge your support for a sustainable tourism assessment for Maui County. The highway, private and public lands and county resources deserve our attention and action to protect these resources from trespassing and the affects of over-tourism.

I am unfamiliar with the resolution entitled "Urging the Office of Economic Development to require the Maui County Visitor Association to incorporate specific environmental items into grant objectives" as well as County Communications 17-231 proposed . Would your office be able to send me this material.

Thank you and your office for your service,

Allen Greenfield
