**PUBLIC WORKS COMMISSION  
ACTION MINUTES  
March 24, 2021**

**A. CALL TO ORDER**

The regular meeting of the Public Works Commission was called to order by Chairperson Michael Silva at approximately 1:33 p.m., Wednesday, March 24, 2021, via a BlueJeans online video conference, Meeting ID 272 107 536.

A quorum of the Commission was present. (See Record of Attendance.)

A representative of the Department of the Corporation Counsel was not present.

**B. ACCEPTANCE OF MEETING MINUTES**

The Commission unanimously approved the acceptance of the December 16, 2020 meeting minutes.

**C. PUBLIC TESTIMONY**

No testimony was received.

**D. NEW BUSINESS**

1. Recognition of outgoing Commission members Brooks Aoki, Harry Hecht, Uvette Sakamoto, and Flordeline Vila.
2. Street Naming Application for new public streets for the Department of Hawaiian Homeland's Puunani Homestead Subdivision, TMK: (2) 3-5-002:002.

A motion was made by Commissioner Kawa'a and seconded by Commissioner Hecht to recommend approval of the street names as proposed in the application without modifications. The Commission voted 6-0 to approve the motion.

3. Correspondence from the Director of Public Works to Councilmember Michael J. Molina dated March 9, 2021 and October 30, 2020, pertaining to a STOP sign on Haiku Road.

The Department noted that this matter was reviewed at the Commission's meeting of October 28, 2020 and the Commission recommended that:

1. That the proposed bill be approved if placement of the stop and configuration of the intersection will provide adequate sight distance; or
2. That the proposed bill be opposed if the stop sign cannot be placed to provide adequate sight distance and that other traffic control devices appropriate for controlling speeding, including speed tables, be considered to address the safety concerns of the community.

The Department informed the Commission that it conducted a site inspection in February 2021 to evaluate the sight distance at the requested STOP sign on Haiku Road. Sight distance was determined to be unaffected by existing minor obstructions adjacent to Haiku Road and when no vehicles are parked in the shoulder area adjacent to the STOP sign. Additionally, it was observed that westbound vehicles experienced little difficulty making the left turn from Haiku Road onto Kokomo Road.

Based on the site inspection findings, the Department will install No Parking signs along the shoulder areas to prevent parking in the future and ensure sight distance is maintained. The Department stated that the site inspection findings support its previous position that a new STOP sign for southbound traffic on Haiku Road is not warranted and restated its opposition to using a STOP sign as a speed control device.

The Commission noted that the Police Department also stated at the October 28, 2020 meeting that the STOP sign is not needed based on their evaluation of the intersection.

The Commission asked whether there are any issues with the existing crosswalks and if additional signage is warranted. The Department stated that the existing crosswalk and stop bars need maintenance and that restriping would be performed.

A motion was made by Commissioner Blanchard and seconded by Commissioner Aoki to support the current recommendations of the Department as stated in its letter dated March 9, 2021, which includes installing No Parking signage, restriping the existing crosswalk and stop bar, and using speed tables if vehicle speeds are a concern, and to oppose the installation of a new STOP sign in consideration of these recommendations.

The Commission voted 6-0 to approve the motion

**E. NEXT REGULAR MEETING DATE: Wednesday, April 28, 2021**

**SUBJECT: STOP SIGN ON HAIKU ROAD**

Dear Councilmember Molina:

We are in receipt of your attached letters dated October 29, 2020 and December 30, 2020, requesting an update on the evaluation of the potential installation of a stop sign on the southbound approach to the Haiku Road and Kokomo Road intersection near the Haiku Cannery Shopping Center. We apologize for the delay in our response.

A preliminary review of the intersection identified at least two obstructions: (1) the fencing on the Hawaiian Telcom parcel along Haiku Road on the west and south boundaries, and (2) shoulder parking fronting the Hawaiian Telcom parcel on its southern boundary. In order to address these obstructions, Hawaiian Telcom would be required to modify their fence and an ordinance would need to be established to prohibit parking along the road shoulder. A follow-up site inspection was conducted by Engineering Division staff in February to assess and identify all potential obstructions that affect the sight distance. The findings of the site inspection are as follows:

- The existing chain link fence at the Hawaiian Telcom parcel was found to not block visibility to oncoming southbound vehicles on Haiku Road. There is an existing utility pole located within the sight triangle, however, it also does not appear to impact visibility to oncoming traffic.
- Did not observe much difficulty for drivers wanting to make the westbound left turn from Haiku Road onto Kokomo Road.
- No vehicles were parked along the south boundary of the Hawaiian Telcom parcel, although there were some visible evidence of vehicle parking along the fence line near the existing stop sign.

Honorable Michael P. Victorino  
For Transmittal to:  
Honorable Michael J. Molina, Councilmember  
March 9, 2020  
Page 2

The following recommendations are proposed by the Department to address the above issues:

- Install No Parking signage to prohibit parking within 30 feet of the existing stop sign at Haiku Road and also refresh the existing crosswalk and stop bar striping. The new signage and restriping are anticipated to be installed and completed by the end of March.
- Speed data taken on Haiku Road in November 2019 just north of the intersection does not show a consistently higher rate of speed. However, if approaching southbound vehicle speeds are a concern, the Department recommends the installation of a speed table on Haiku Road just north of the intersection and U.S. Post Office.

The Department will be requesting that the Public Works Commission revisit this item at their next Commission meeting on March 24, 2021. Should you have any further questions, please feel free to contact me at (808) 270-7845.

Sincerely,

Dear Ms. Dagdag-Andaya:

**SUBJECT: STOP SIGN ON HAIKU ROAD**

Thank you for transmitting the proposed bill entitled "A BILL FOR AN ORDINANCE AMENDING SECTION 10.44.030, MAUI COUNTY CODE, RELATING TO STOP REQUIRED-THROUGH STREET INTERSECTING THROUGH STREET," to the Public Works Commission for their review and recommendation.

My understanding of the Commission's recommendation is that they approve the installation of a stop sign if the matter relative to "sight distance" can be resolved. Also, as an alternative they are supportive of potential traffic calming devices to address safety concerns.

Accordingly, I have attached an aerial picture and map of the proposed location the community desires to have the stop sign location. In an effort to resolve the "sight distance" matter, may I respectfully request your consideration for providing recommendations to address the "sight distance" concerns of the Commission.

I appreciate that the Commission has suggested traffic calming devices as an alternative to the stop sign, but the community has made it clear, they do not support traffic calming as a solution, they prefer the installation of a stop sign.
