PROBLEM STATEMENT

MAUI POLICE DEPARTMENT TRAFFIC DATA

Grant No: TR22-M-04

Identify the traffic safety related problem or deficiency that the proposed grant is intended to correct.

According to a major recommendation of Hawaii's Traffic Records Assessment in September 2011 (under 2-A: Crash Data Component), the Hawaii Traffic Records Coordinating Committee (TRCC) should "make solving the crash timeliness problem as the number one traffic records priority for the State." The assessment team urged that "Hawaii devote the bulk of its Section 408 grant funds to electronic field data collection and electronic submission until the problems are solved." As a result, the HTRCC has deemed projects relating to electronic transfer of crash records and electronic Motor Vehicle Accident Reports (MVAR) as a top priority.

We have implemented a File Transfer Protocol (FTP) with our Motor Vehicle Accident Reports and Hawaii Department of Transportation. It's currently a manual process; however, we are working on making this automated. MPD has recently changed their entire CADS/RMS systems. However, we continue to work with state DOT and the SHACA project. The current problem is we can not obtain real time or current crash data from DOT as we do not provide them with the information daily. The problem is without crash data it can be difficult to identify causes of crashes at certain locations and identify the need for specific enforcement.

Furthermore, the issuance of citations by patrol sector is still paper. This is very time consuming and inaccuracies are inevitable as the citations must be manually entered on the judiciary side. With the implementation of TBL for traffic officers and parking enforcement, we have been able to significantly reduce the amount of time it takes from citation issuance to judiciary acceptance. We would like to increase the amount of users of TBL and help in reducing errors and inaccuracies with judiciary.

GRANT GOALS

MAUI POLICE DEPARTMENT TRAFFIC DATA

Grant No: TR22-M-04

Goals serve as the foundation upon which the grant is built. Goals are what you hope to accomplish by implementing a traffic safety grant and represent an end result. Grant goals should be stated in measurable terms (i.e., a percent reduction), be concise and deal with a specific item, be realistic with a reasonable probability of achievement, and be related to a specific time frame (a "by" date). Please notate baseline from which the reduction/increase will result.

The goal of this grant is to:

1. Decrease the average time it takes from crash occurrence to entry into HDOT database from 211 days in 2020 to 158 days by September 30, 2022.
2. Continue with the electronic issuance of traffic citations to reduce the errors and timeliness issues that result in citations being dismissed by district courts. Currently MPD using e-citations program has a 90% acceptance rate from Judiciary. The goal is to reduce officer error and increase acceptance rate to closer to 95% with zero officer errors and timeliness issues.
3. MPD will also incorporate TBL analytics data with HIGLS data to assist in determining best locations to deploy resources for enforcement by September 30, 2022;

GRANT OBJECTIVES

MAUI POLICE DEPARTMENT TRAFFIC DATA

Grant No: TR22-M-04

Objectives are tasks or activities conducted in order to accomplish the grant goal(s) (e.g., develop permanent fitting stations for child restraints, enforcement activities, educational activities, etc.). Grant objectives should be stated in measurable terms (i.e., a percent reduction, number of training to be held, number of roadblocks, etc.), be concise and deal with a specific item, be realistic with a reasonable probability of achievement, and be related to a specific time frame (a "by" date). Please notate baseline from which the reduction/increase will result.

The grant activities that will be conducted to achieve the grant goals are:

1. Contract with Thin Blue Line Reporting for 1 year to conduct the eCitation pilot program.
2. Meet with the Department of Motor Vehicles and Thin Blue Line Reporting at least 3 times to address printing and legibility concerns related to Hawaii motor vehicle registrations.
3. Participate in at least 4 Traffic Records Coordinating Committee meetings.
4. Participate in at least 4 eCitation Subcommittee meetings.
5. Send 1 person to the 2022 International Forum on Traffic Records.
6. Meet with HDOT at least 1 time to work on implementation of HIGLS between MPD and the State of Hawaii Advanced Crash Analysis (SHACA) system.

GRANT METHOD OF EVALUATION

MAUI POLICE DEPARTMENT TRAFFIC DATA

Grant No: TR22-M-04

Using data gathered throughout the grant period, the grant manager will evaluate (1) how well the stated grant goals and objectives were accomplished, and (2) was the grant cost effective? How are you going to show effectiveness of your project? What will be the impact of the project on your identified problem and goal(s)? Provide details on the method of evaluation. For on-going projects that have been funded for more than one year, also provide data to show what the project has accomplished over the course of the years.

The Maui Police Department will evaluate the progress of this project by analyzing the number of crash data reports that are submitted electronically to the DOT and compare this to the baseline data. The progress of these goals/objectives will be documented in the quarterly reports to the Highway Safety Office.

The Maui Police Department will evaluate the progress of the e-Citation pilot program by evaluating the equipment by keeping track of and providing the following information.

1. How much time is saved by issuing an electronic citation vs. writing one. Time saved when issuing a traffic infraction and traffic crime upon one violator/data transfer.
2. How safety is improved for the officers utilizing this equipment. Daytime vs. nighttime.
3. How accurate is the information that is being sent to Judiciary/Traffic Violations Bureau. Including the amount of errors being added or reduced by using this technology. (illegible, missing data, missed deadlines)

In addition, MPD will evaluate the progress of the grant activities and include the progress in the quarterly reports to the Highway Safety Office.

CERTIFICATION REGARDING FEDERAL LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements. The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

3. The undersigned shall require that the language of this certification be included in the award documents for all sub-award at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

RESTRICTION ON STATE LOBBYING

None of the funds under this program will be used for any activity specifically designed to urge or influence a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

CERTIFICATION REGARDING DEBARMENT AND SUSPENSION

Instructions for Lower Tier Participant Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR parts 180 and 1200.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms *covered transaction*, *civil judgment*, *debarment*, *suspension*, *ineligible*, *participant*, *person*, *principal*, and *voluntarily excluded*, as used in this clause, are defined in 2 CFR parts 180 and 1200. You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Instructions for Lower Tier Participant Certification" including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion — Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with 2 CFR parts 180 and 1200.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any prospective lower tier participants, each participant may, but is not required to, check the System for Award Management Exclusions website (<https://www.sam.gov/>).

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension or debarment.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion — Lower Tier Covered Transactions:

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

BUY AMERICA ACT

The APPLICANT will comply with the Buy America requirement (23 U.S.C. 313) when purchasing items using Federal funds. Buy America requires a State, or Applicant, to purchase with Federal funds only steel, iron and manufactured products produced in the United States, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification for approval by the Secretary of Transportation.

PROHIBITION ON USING GRANT FUNDS TO CHECK FOR HELMET USAGE

The APPLICANT will not use 23 U.S.C. Chapter 4 grant funds for programs to check helmet usage or to create checkpoints that specifically target motorcyclists.
